#### SKILLS

### Languages

- Python
- SQL
- Bash
- HTML
- CSS
- JavaScript

#### Framework

- Django
- Pandas
- NumPy

#### Tools

- Git
- MySQL
- Linux Terminal
- VS Code

### **Platforms**

- Linux (Ubuntu/Kali)
- GitHub

### **Soft Skills**

- Problem-solving
- Continuous learning
- Attention to detail
- Team collaboration

#### EDUCATION

# Bharati Vidyapeeth University College of Engineering, Pune

B.Tech - Computer Engineering 2021 - 2025

Ryan International School, Jaipur

Higher Secondary Education 2021 76.8%

St. Anselm's Pink City School, Jaipur

Secondary Education 2019

65.2%

### **PROFILE**

Motivated Computer Engineering student with hands-on experience in Python scripting, Linux systems, and secure web development. Trained in identifying phishing threats, automating system tasks, and building data-driven applications with a security-first approach. Eager to contribute to cybersecurity teams through continuous learning and problem-solving.

# EXPERIENCE

# Cybersecurity Virtual Experience Program June 2025 Mastercard | Forage (Remote)

- Understood real-world challenges in identifying and reporting phishing threats.
- Gained knowledge of analyzing organizational security awareness needs.
- Learned how to design team-specific cybersecurity training programs.

# Data Analyst & Python Developer Jun 2024 - Sep 2024

Amnex Infotechnologies | Ahmedabad, Gujarat (Remote)

- Gained hands-on experience in automating data analysis workflows using Python.
- Learned to build secure, data-driven Django web apps with real-time dashboards.
- Implemented basic data privacy controls and access management.
- Strengthened understanding of anomaly detection using statistical methods.

### **Junior Python Developer**

May 2023 - Jul 2023

# Marktine Technology Solutions | Jaipur, Rajasthan (On-Site)

- Learned backend development and secure coding using Django and MySQL.
- Managed databases with a focus on integrity and data protection.
- Collaborated with teams to test and debug APIs with security in mind.
- Built awareness of vulnerability mitigation practices

### **PROJECTS**

# **Linux Terminal Automation Scripts**

- Learned automation scripting using Python to manage files and monitor systems.
- Developed tools for secure task automation on Linux platforms.
- Strengthened scripting skills for cybersecurity tasks and audits.

#### **Secure Portfolio Website**

- Built a responsive website with HTML, CSS, and JavaScript.
- Applied basic security practices like input validation and secure navigation.
- Gained experience deploying and maintaining public web assets securely.
